PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science and Engineering (Networks) student with hands-on experience in developing web applications and AI-based cybersecurity solutions through academic projects. Passionate about solving real-world problems, learning new technologies, and building scalable software. Seeking an entry-level Software Developer role to contribute technical and analytical skills.

TECHNICAL SKILLS

- Programming Languages: Python, Java, C
- Frameworks & Libraries: Django, Streamlit, Scikit-learn, Pandas, Matplotlib
- Developer Tools: Git, GitHub, VS Code
- Web Technologies: HTML, CSS, JavaScript
- Databases: MySQL, SQLite
- Core Computer Science: OOP, DSA, DBMS, OS, Computer Networks, Software Engineering

PROJECTS

1. E-Commerce Web Application Using Django 🔗

- Built a full-stack e-commerce web application using Django and SQLite.
- Implemented secure user authentication, product catalog, shopping cart, and checkout functionality.
- Designed responsive web pages using HTML, CSS, and JavaScript.
- Utilized Django ORM for efficient database operations and product management.
- Applied modular project architecture for better scalability and maintainability.

Technologies: Python, Django, HTML, CSS, JavaScript, SQLite

2. AI-Driven Threat Detection System for Cybersecurity 🔗

- Built an AI-powered threat detection system for identifying suspicious login activities.
- Implemented the Isolation Forest algorithm for anomaly detection.
- Designed an interactive Streamlit dashboard for real-time monitoring and visualization.
- Performed data preprocessing and analysis using Pandas.
- Generated visual reports using Matplotlib to support security monitoring.
- Improved threat detection through automated anomaly identification.

Technologies: Python, Streamlit, Pandas, Scikit-learn, Matplotlib, Isolation Forest

EDUCATION

Bachelor of Technology (B.Tech) Computer Science and Engineering (Networks)

2023 – 2027

Kakatiya Institute of Technology and Science, Warangal

CGPA : 7.33

INTERNSHIP & TRAINING

Forge Cybersecurity Job Simulation

- Performed cybersecurity incident analysis and threat assessment.
- Learned incident response methodologies and security best practices.
- Strengthened analytical and problem-solving skills through practical simulations.

Java Training Program

- Learned Core Java, Object-Oriented Programming, Exception Handling, and Collections.
- Built a strong foundation in Java programming and software development principles.

CERTIFICATIONS

- Getting Started with Cybersecurity - IBM
- Introduction to Cybersecurity - Cisco
- Java - HackerRank
- Python - HackerRank
